

eTech Professional **Time & Billing** is a comprehensive system for tracking time and billing for professional service companies. Client projects can be tracked and billed by project phases, tasks and user defined bill codes.

Utilizing the **eTech web based Time Sheet** greatly simplifies the collection of employee time and expenses. Client projects are easily and accurately billed according to various user configured options. Project profitability and employee efficiency information becomes readily visible to management. The system generates customer billing summaries, employee utilization reports, custom invoices, detailed task notes and concise client service invoices with amazing ease and speed. Client invoices support features like multiple bill rates, unlimited task notes and expense detail. With the eTech Time and Billing system you can easily get your billing done in a timely and efficient manner.

Etech's **Time and Billing** also offers invoice integration with Microsoft WORD, custom configurations and email capabilities. Improve your cash flow by simplifying record keeping and producing timely client billing.

Not only does **Etech's web based solutions for time and project management** offer secure user access, it's easy to implement and astonishingly economical as you see an immediate return on your investment.
