www.SolutionCorp.com

Here at **Solutioncorp**, we fully understand the importance of tracking time without losing time. This is why we bring you the web's easiest to use **Time Sheet**.

The **eTech Web Based Timesheet** is an intuitive and easy-to-use software system for tracking employee time and expenses. The system fully automates the collection and preparation of employee timesheets. Employees can easily and securely enter their timesheets by project, phase, activity and/or task. The eTech Timesheet completely integrates with project management and client billing.

The eTech timesheet offers user configuration options to fit many time tracking needs. User may track time for basic projects, or extend the functionality of your time sheet to include Phases, Tasks, Bill Codes, and Operation Centers. Email notifications and managerial approval routines insure accuracy and timely entry of employee timesheets. Time data is interfaced directly into Project reporting and client billing systems. The software operates securely over the internet or local intranets.

Complex or simple, large or small, eTech's Web Based Time Sheet meets your time tracking needs while remaining the industry leader in ease of use and performance.

**Good systems should not take time to track time.**
